

BLM Water Resource Management Contacts

NAME	OFFICE	PHONE NUMBER
Jerry Jech	Cody	587-2234
Chet Wheelless	Bighorn Basin (Worland)	347-5149
Ken Peacock	Great Divide (Rawlins)	328-4232
Greg Bautz	Lander	332-8437
Dennis Doncaster	Rock Springs	352-0207
Steve Laster	Pinedale	367-5325
Jerry Pierce	Kemmerer	828-4525
Ed Feeley	Kemmerer	828-4531
Larry Gerard	Buffalo	684-1142
George Soehn	Casper	261-7531
Gary Lebsack	Newcastle	746-4453

BLM Field Office Contact coordination responsibilities should include (per IM WY-98-66, Coordination with the Wyoming Department of Environmental Quality):

- Facilitating WDEQ review of existing BLM water resources related data (e.g., Riparian Proper Functioning Condition) through direct submission of data to WDEQ or by hosting field data reviews for WDEQ team leaders in the Field Office.
- Scheduling of annual field work with appropriate WDEQ team leaders. Schedules should consider opportunities to either work together in a joint effort where inventory of PFC by BLM and chemical and biological inventory by WDEQ can be conducted simultaneously, or coordinate field work sequentially where BLM and WDEQ conduct independent, but complementary, efforts within agreed upon watersheds.
- Maintaining a current copy of the Wyoming Department of Environmental Quality, Water Quality Division Water Quality Program Guidance notebook.
- and, coordinating all Field Office inquiries to WDEQ regarding preliminary determination of water quality impairment within allotments being assessed (per WY IM No. 98-061; contacts should be directed to Jack Smith, WDEQ Field Supervisor, at 332-3144).
